

WELKOM

Preeclampsie lotgenoten dag

Preeclampsie lotgenoten dag 18-02-2017

Naam: Prof. Dr. Marc Spaanderman

Titel: Preconceptionele vasculaire screening

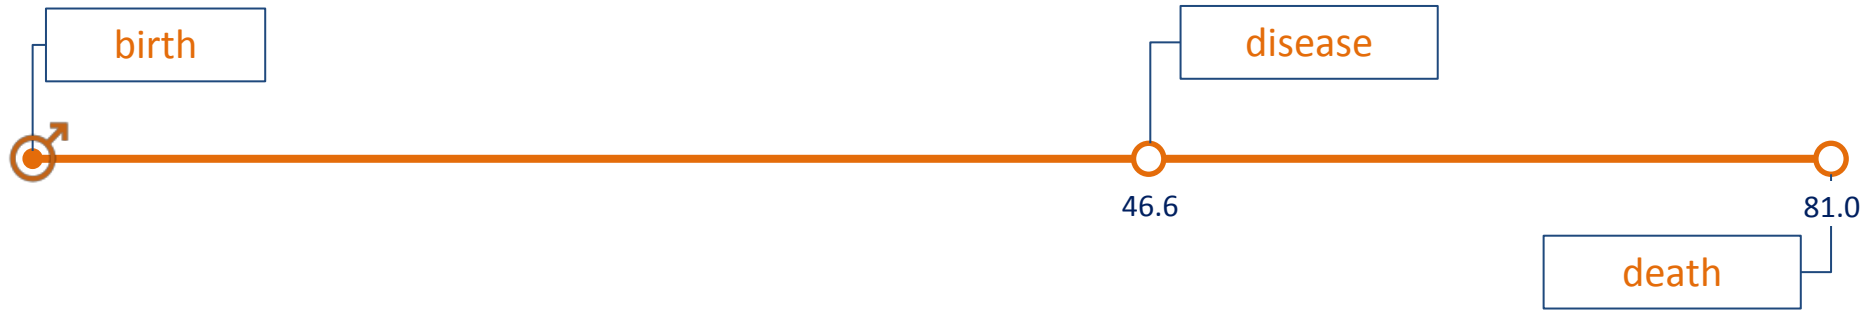

preconceptioneel vasculaire onderzoek

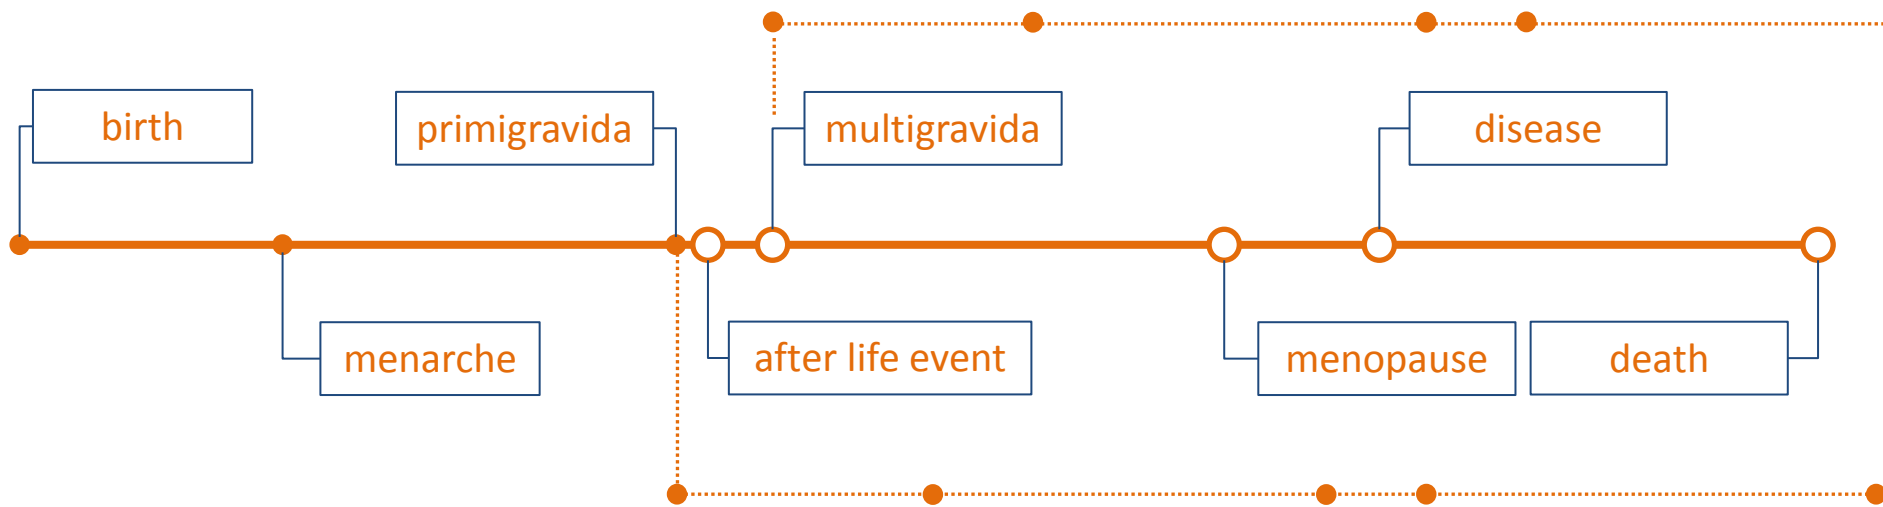

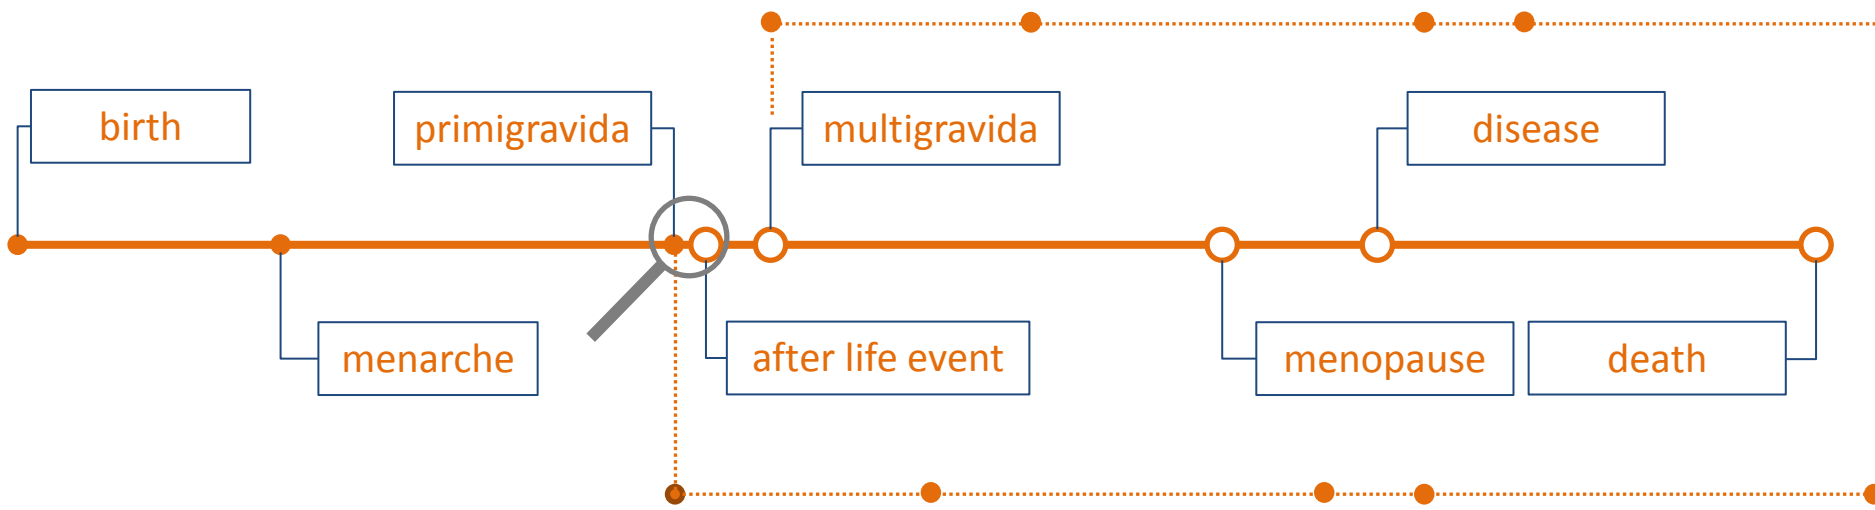

prof. dr. marc spaanderman

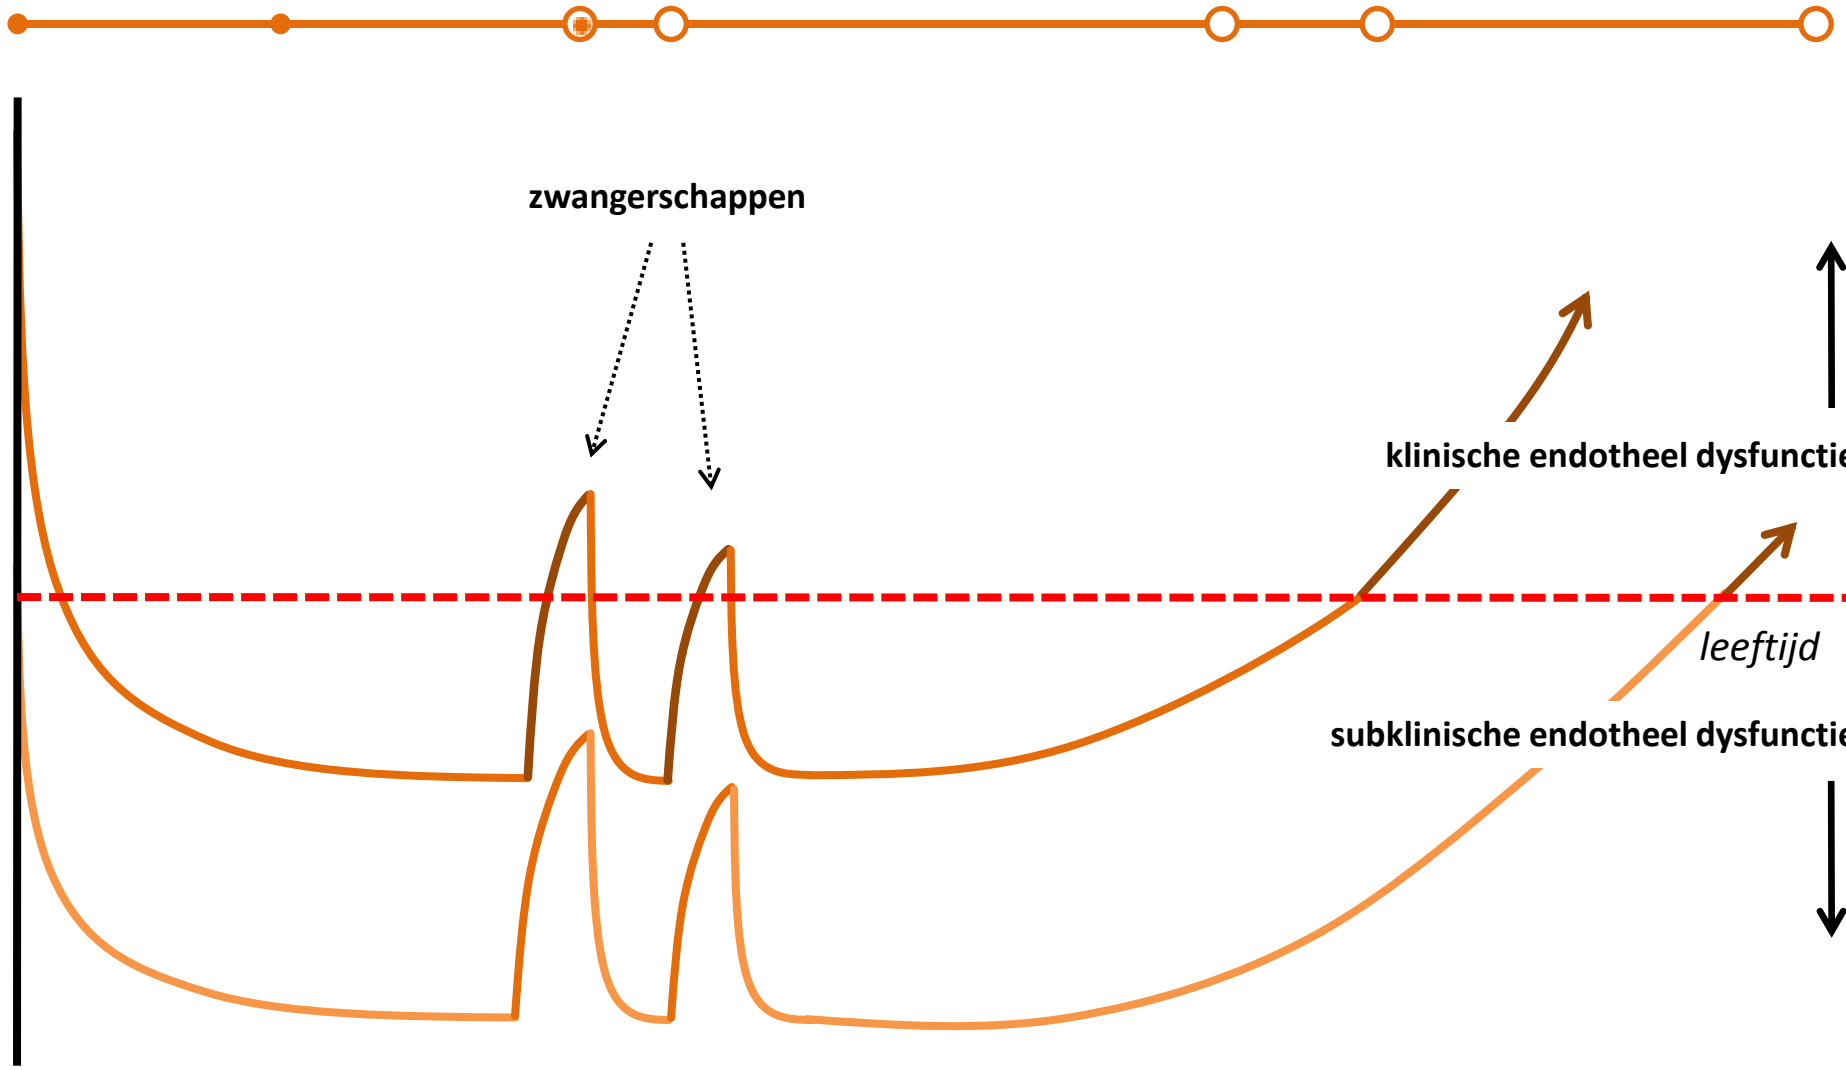

Preeclampsie en HELLP syndroom zijn **vaataandoeningen** ontstaan door **van te voren bestaande risico factoren** nadelig voor de **capaciteit** van de bloedsomloop.

capaciteit = basisfunctie en verandervermogen (reserves)

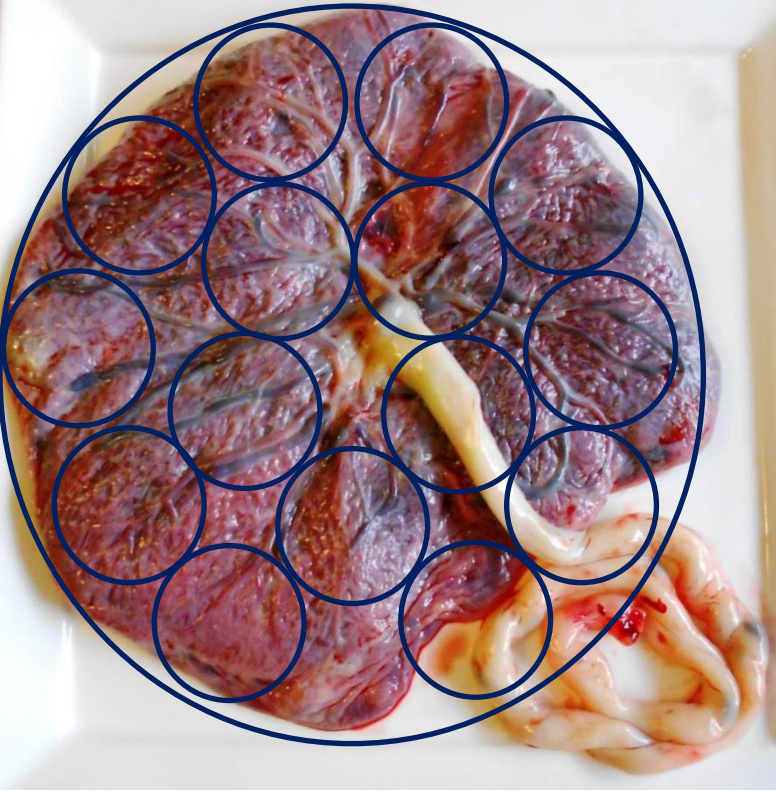

zwangerschappen

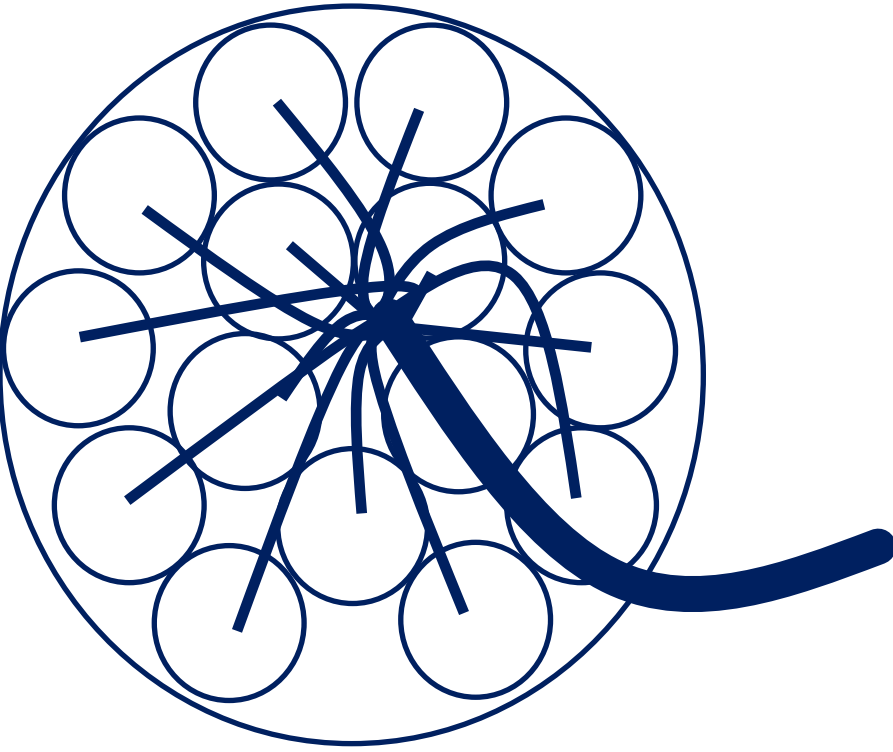

klinische endotheel disfunctie

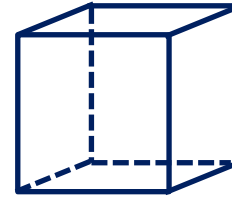

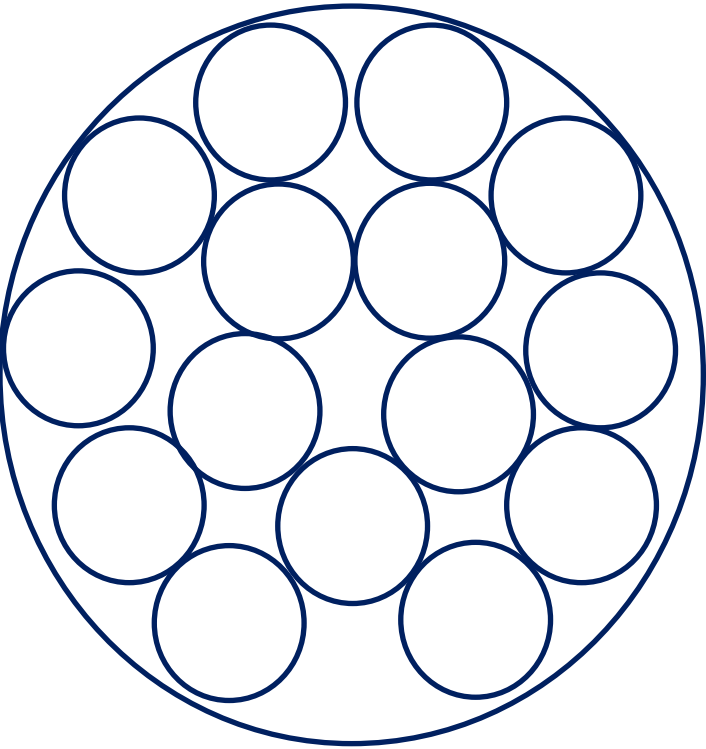

subklinische endotheel disfunctie

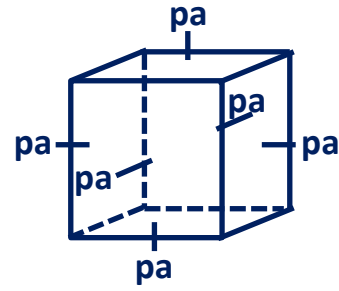

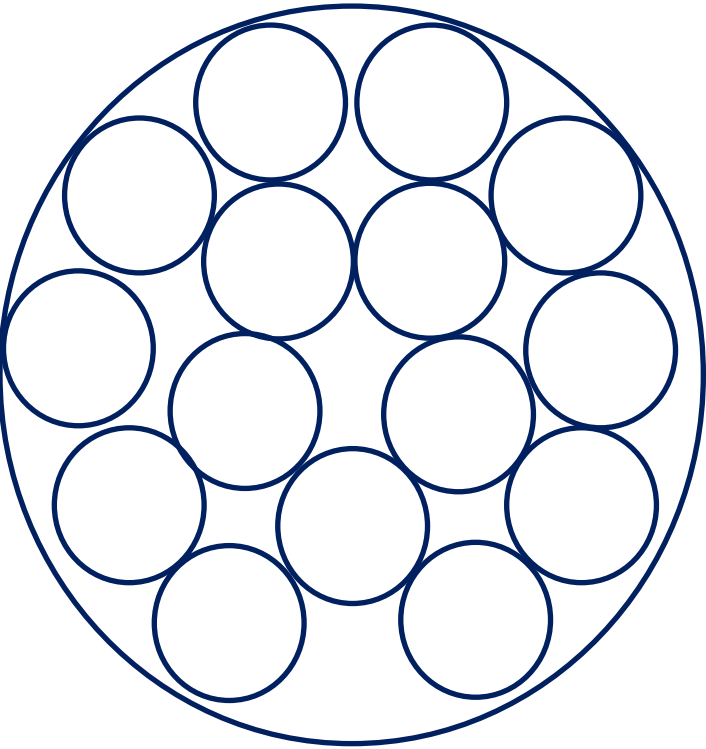

leeftijd

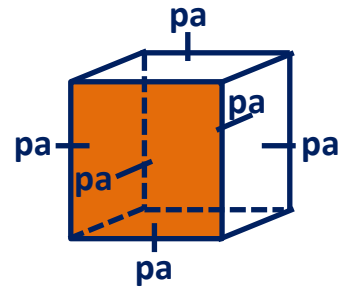

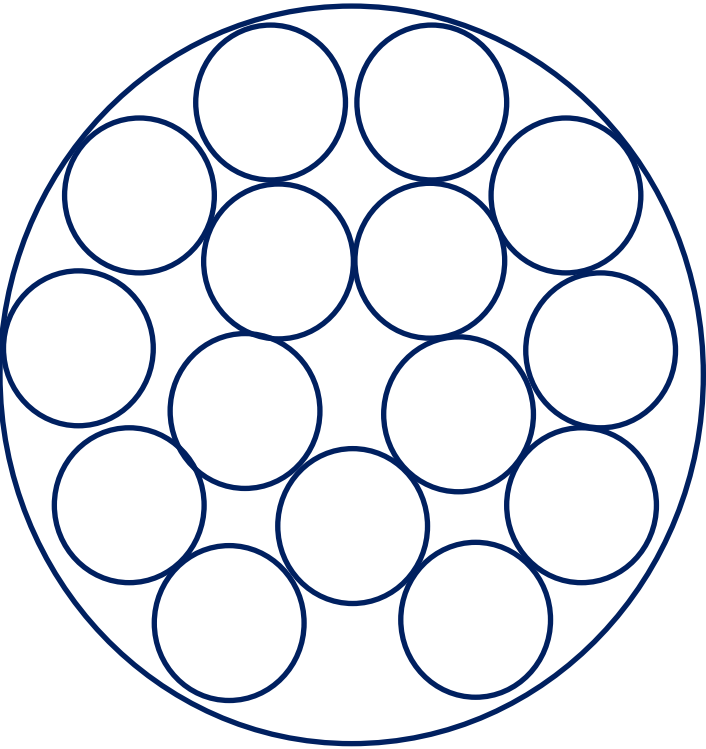

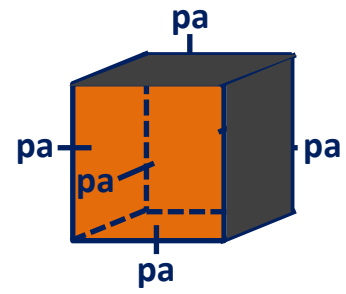

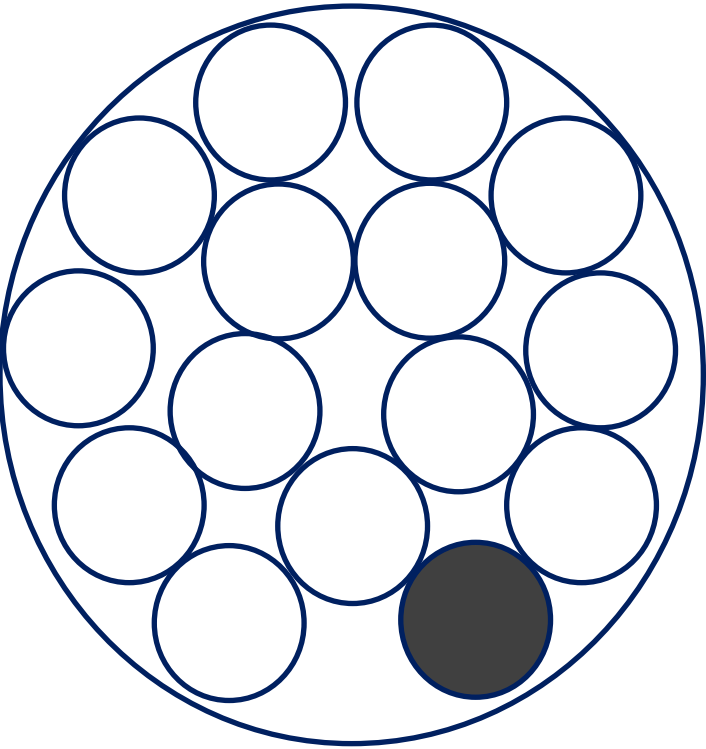

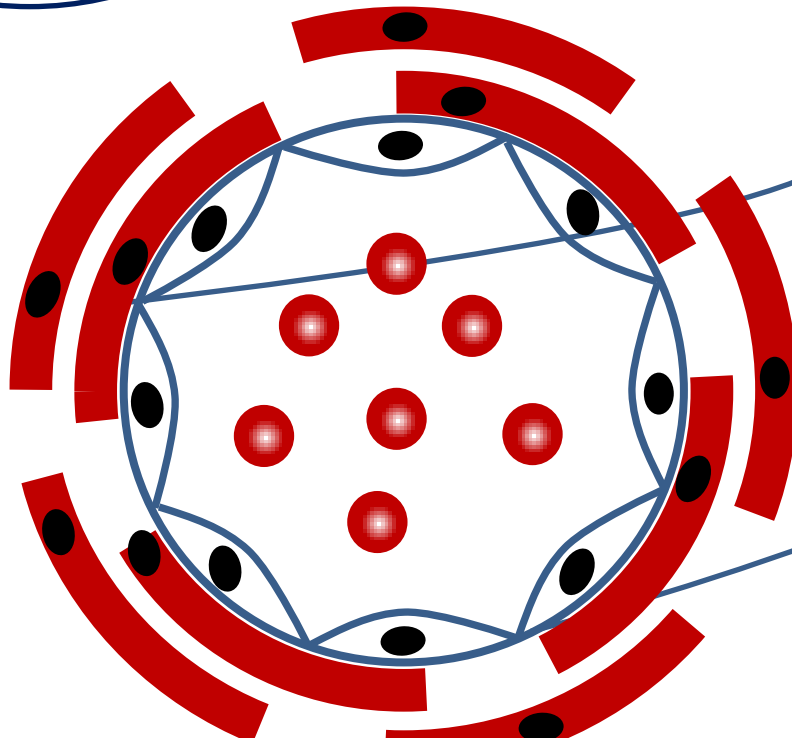

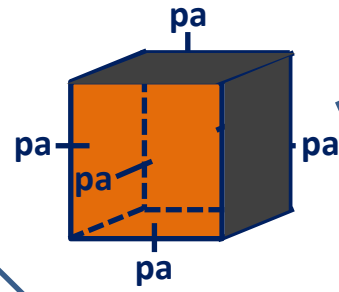

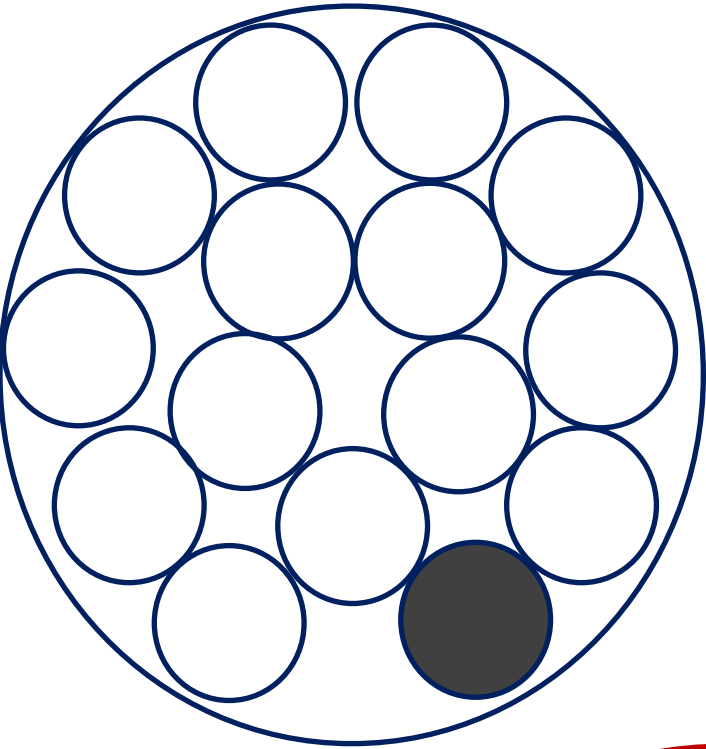

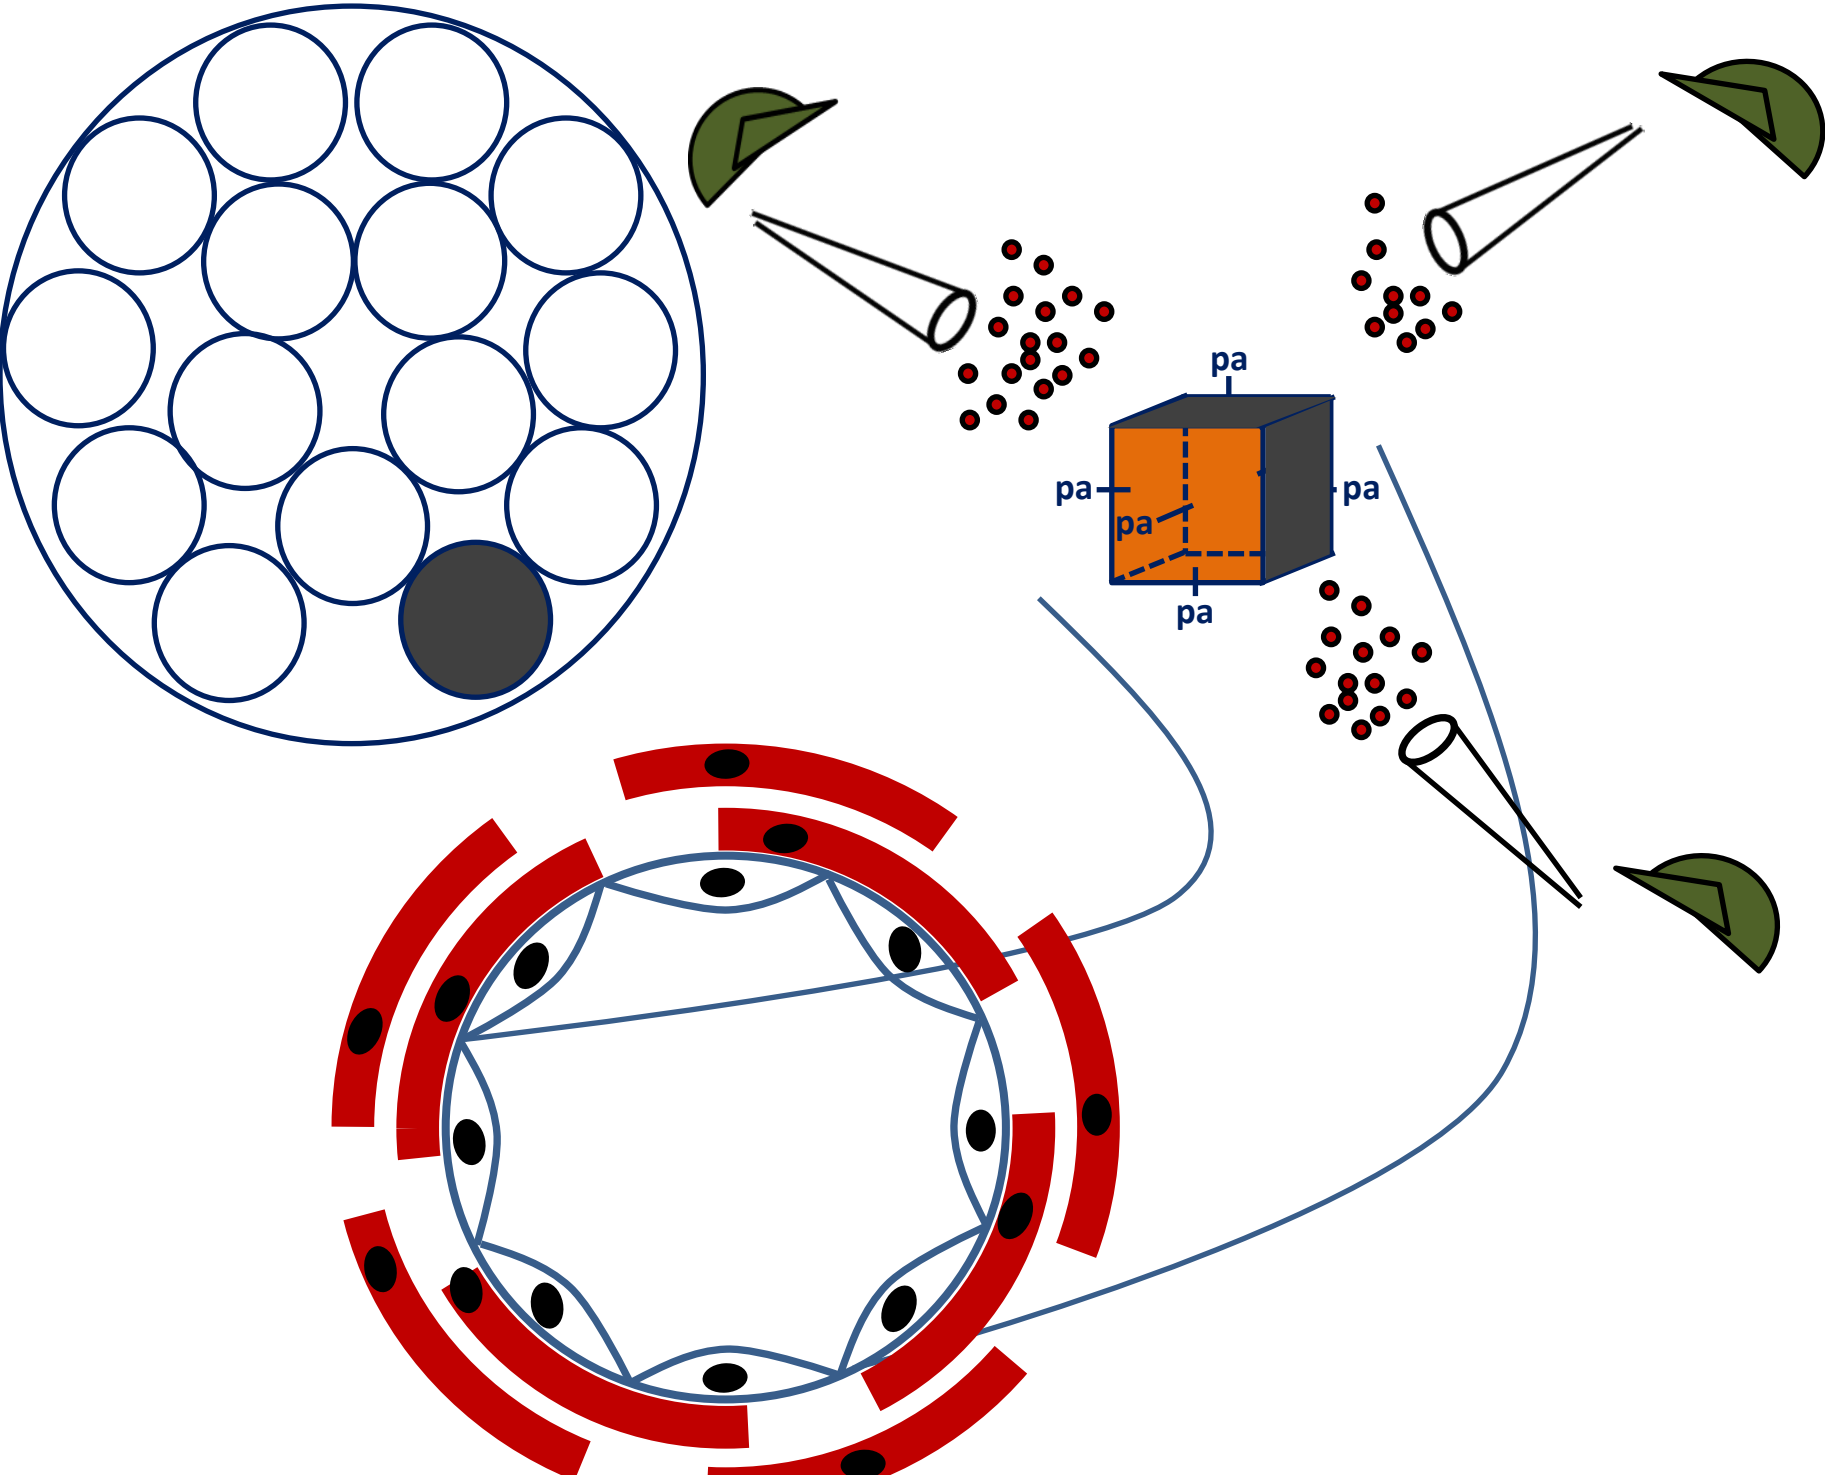

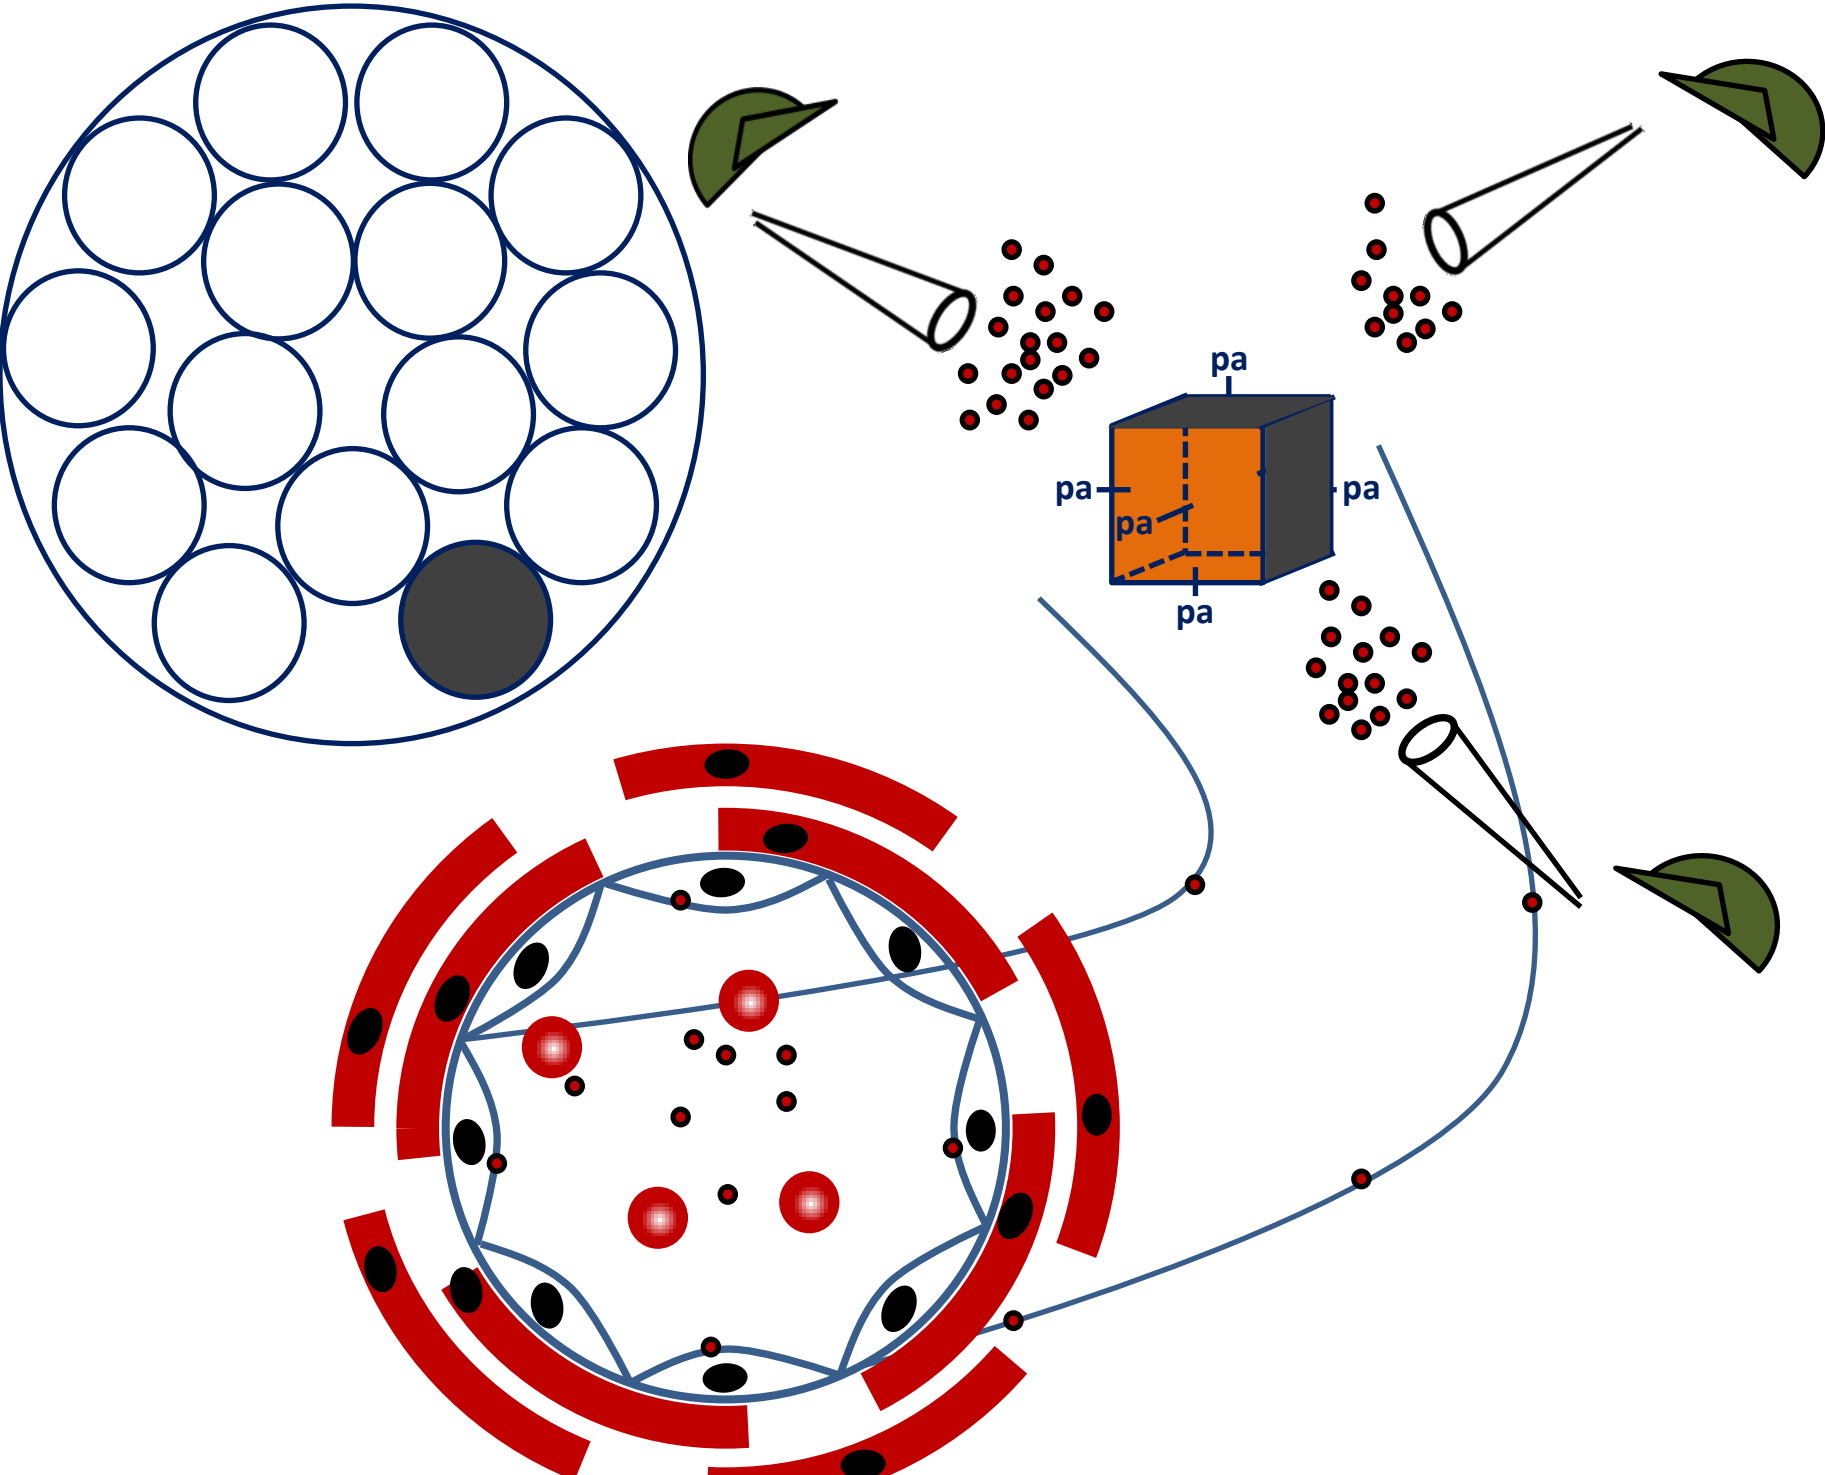

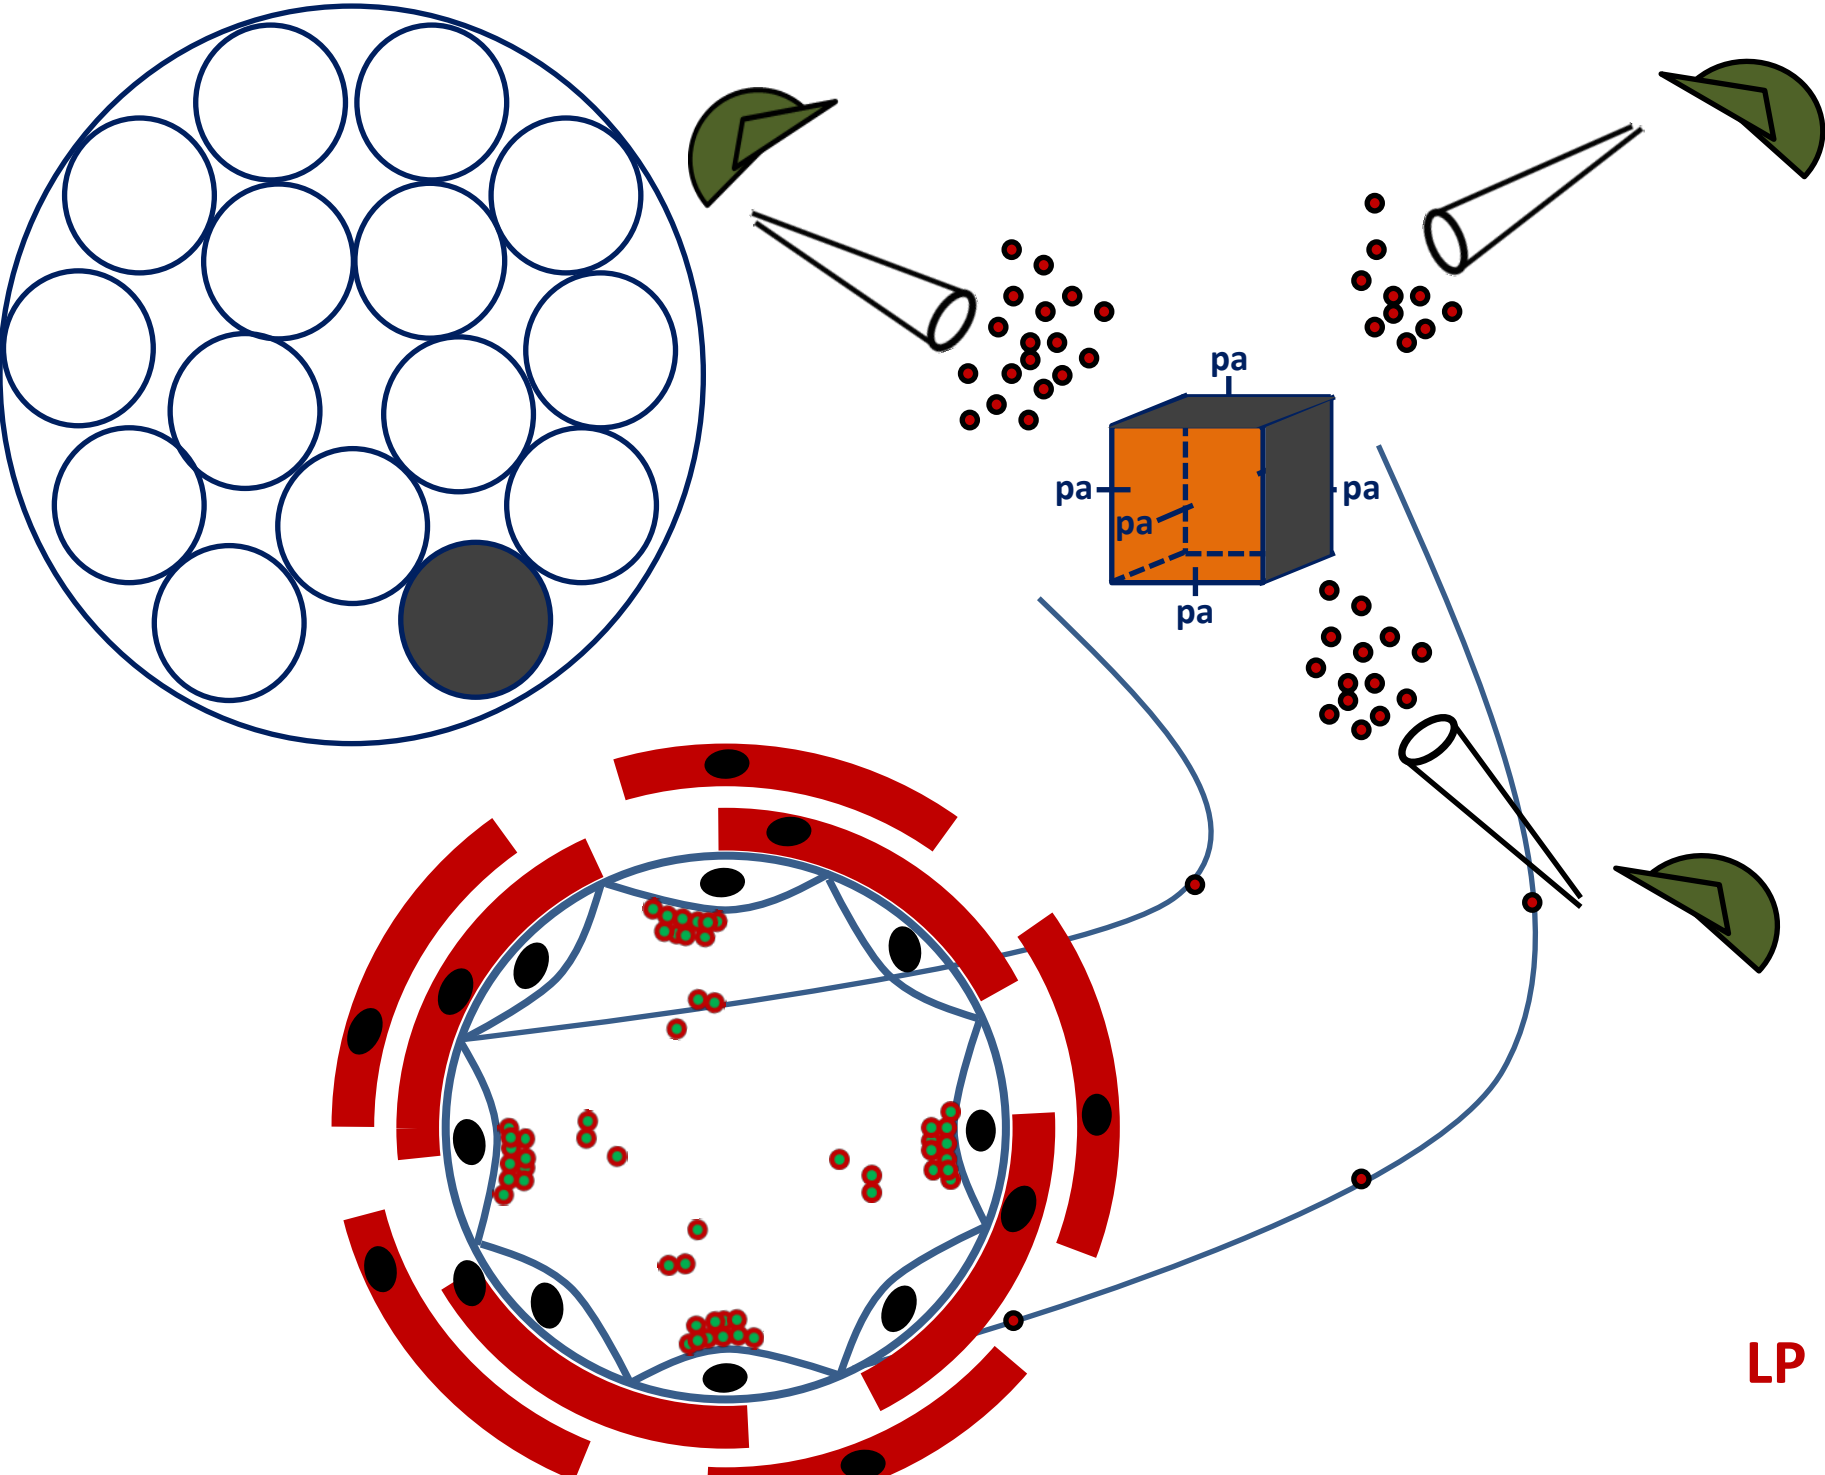

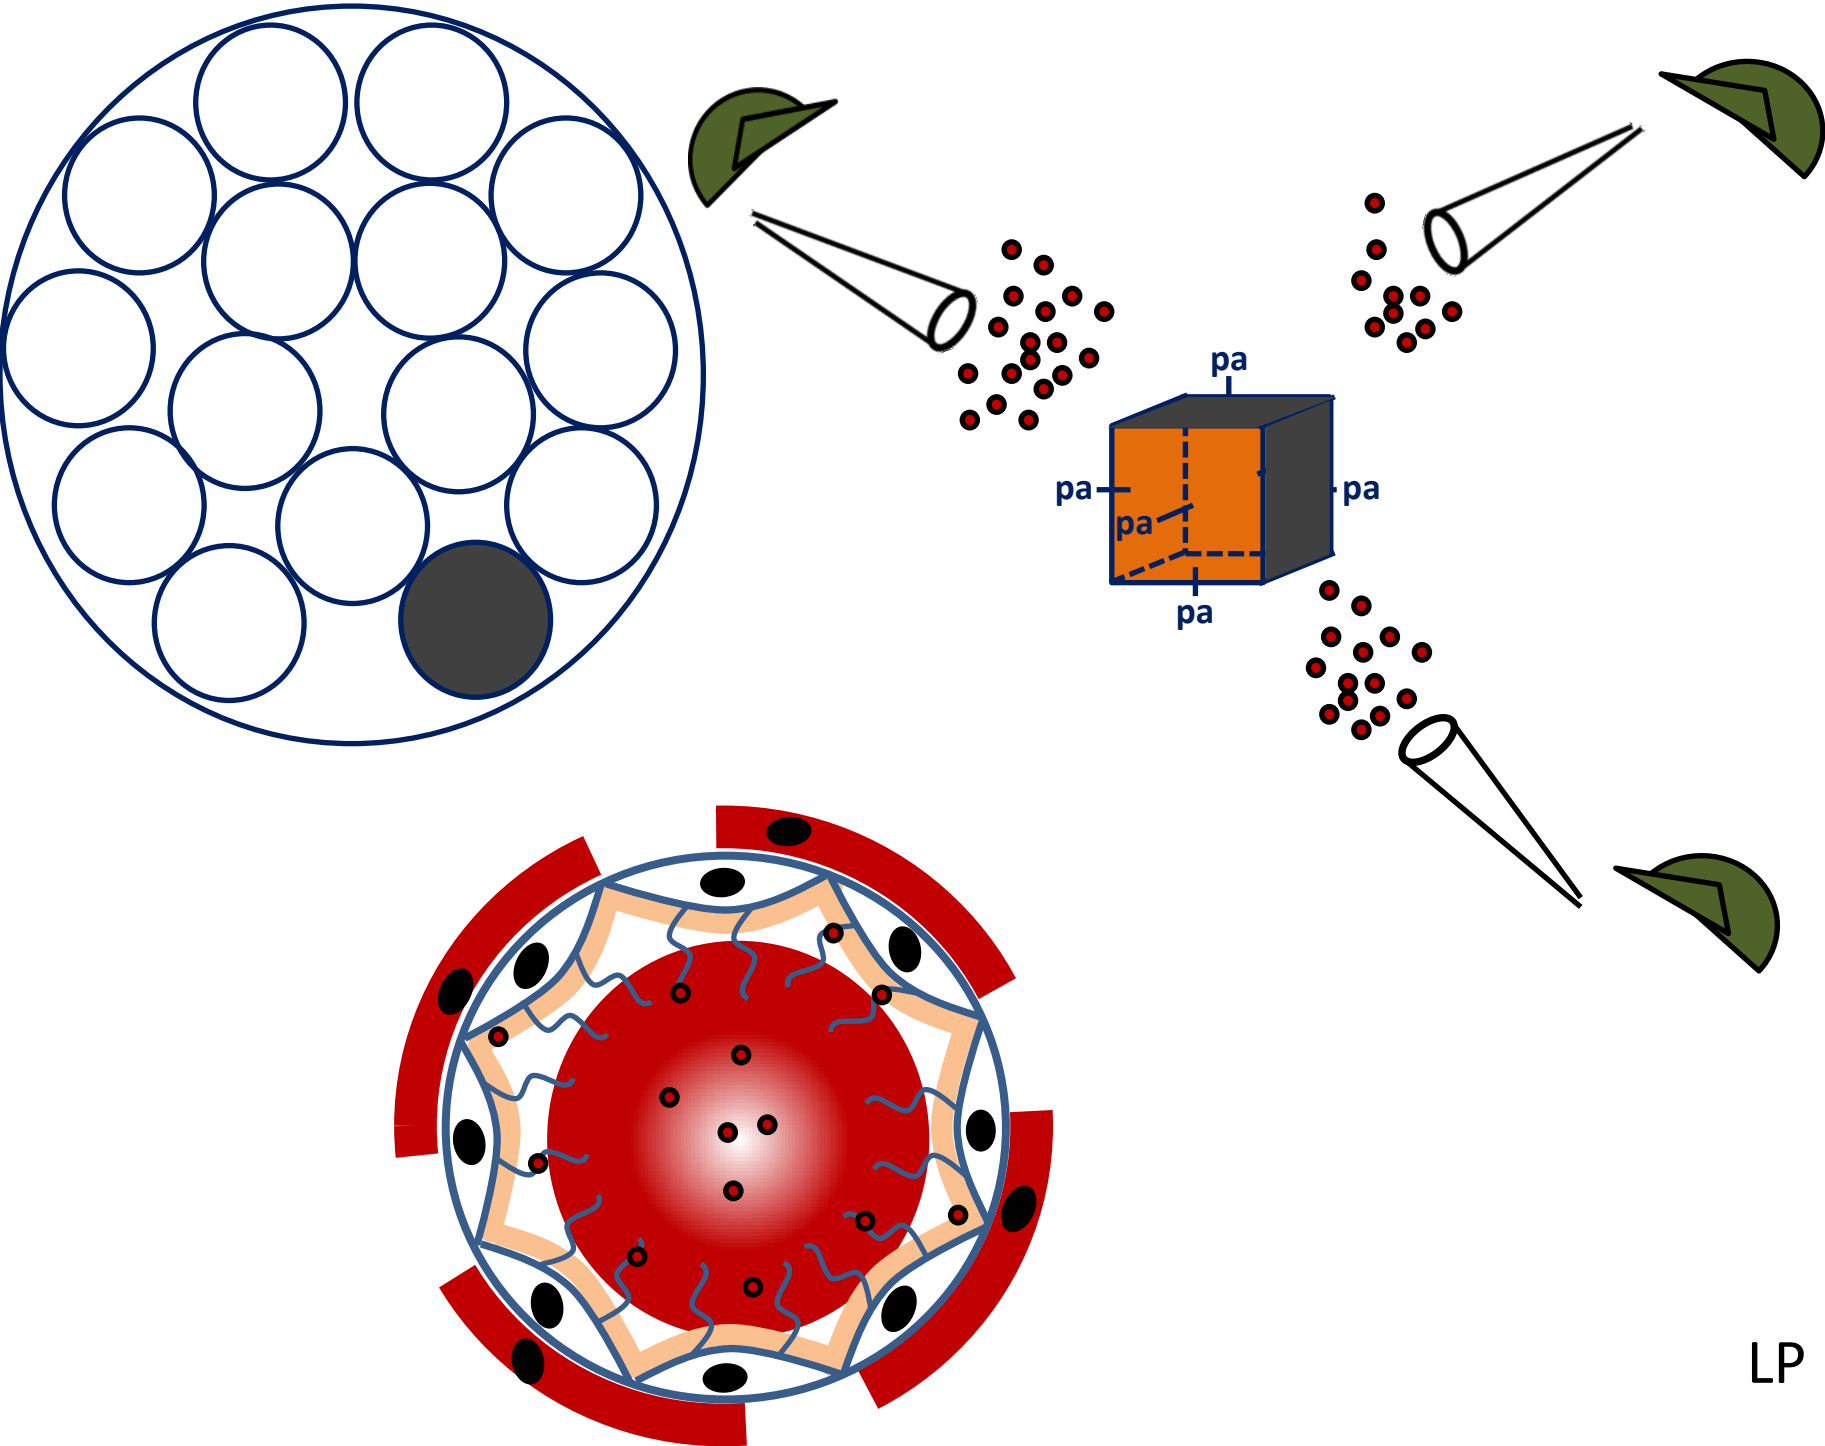

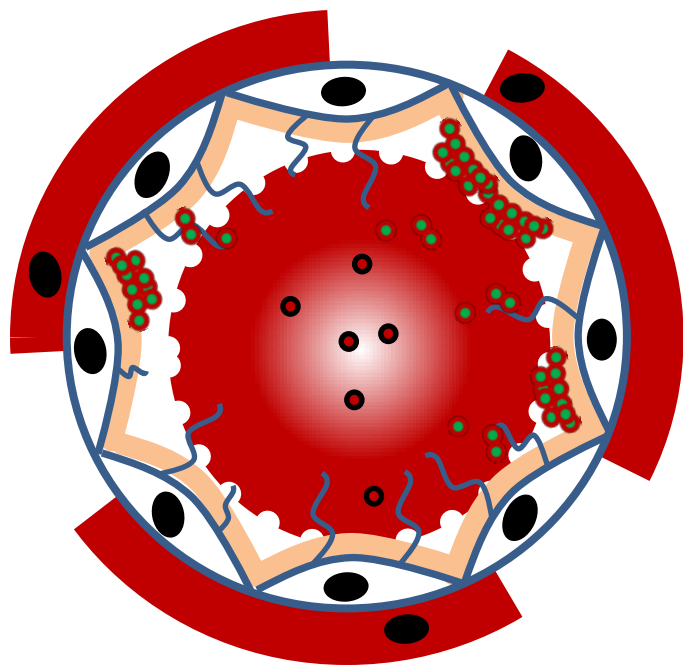

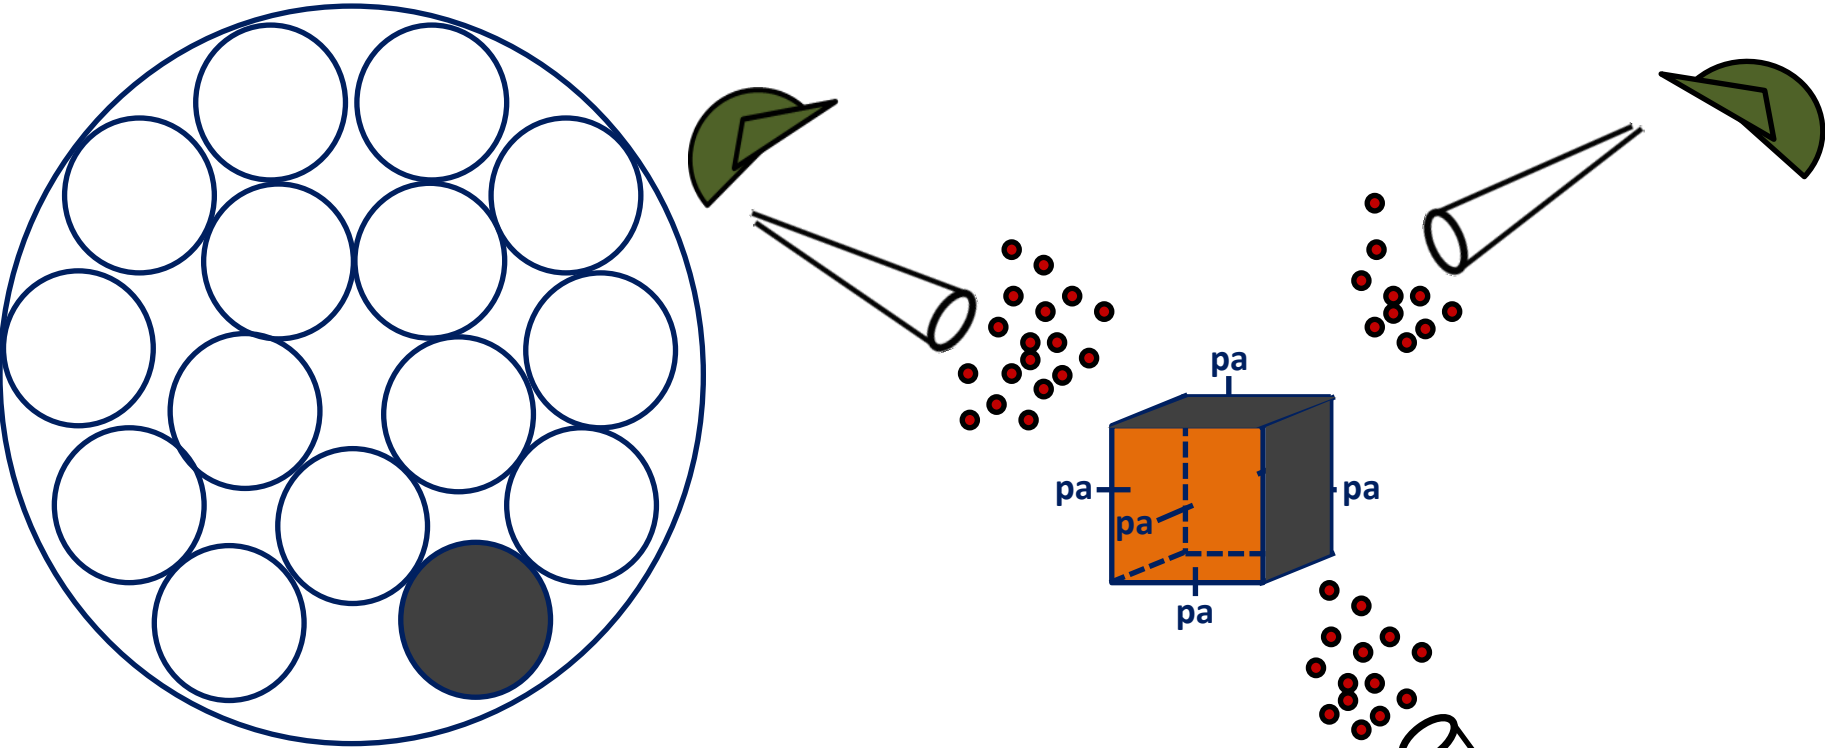

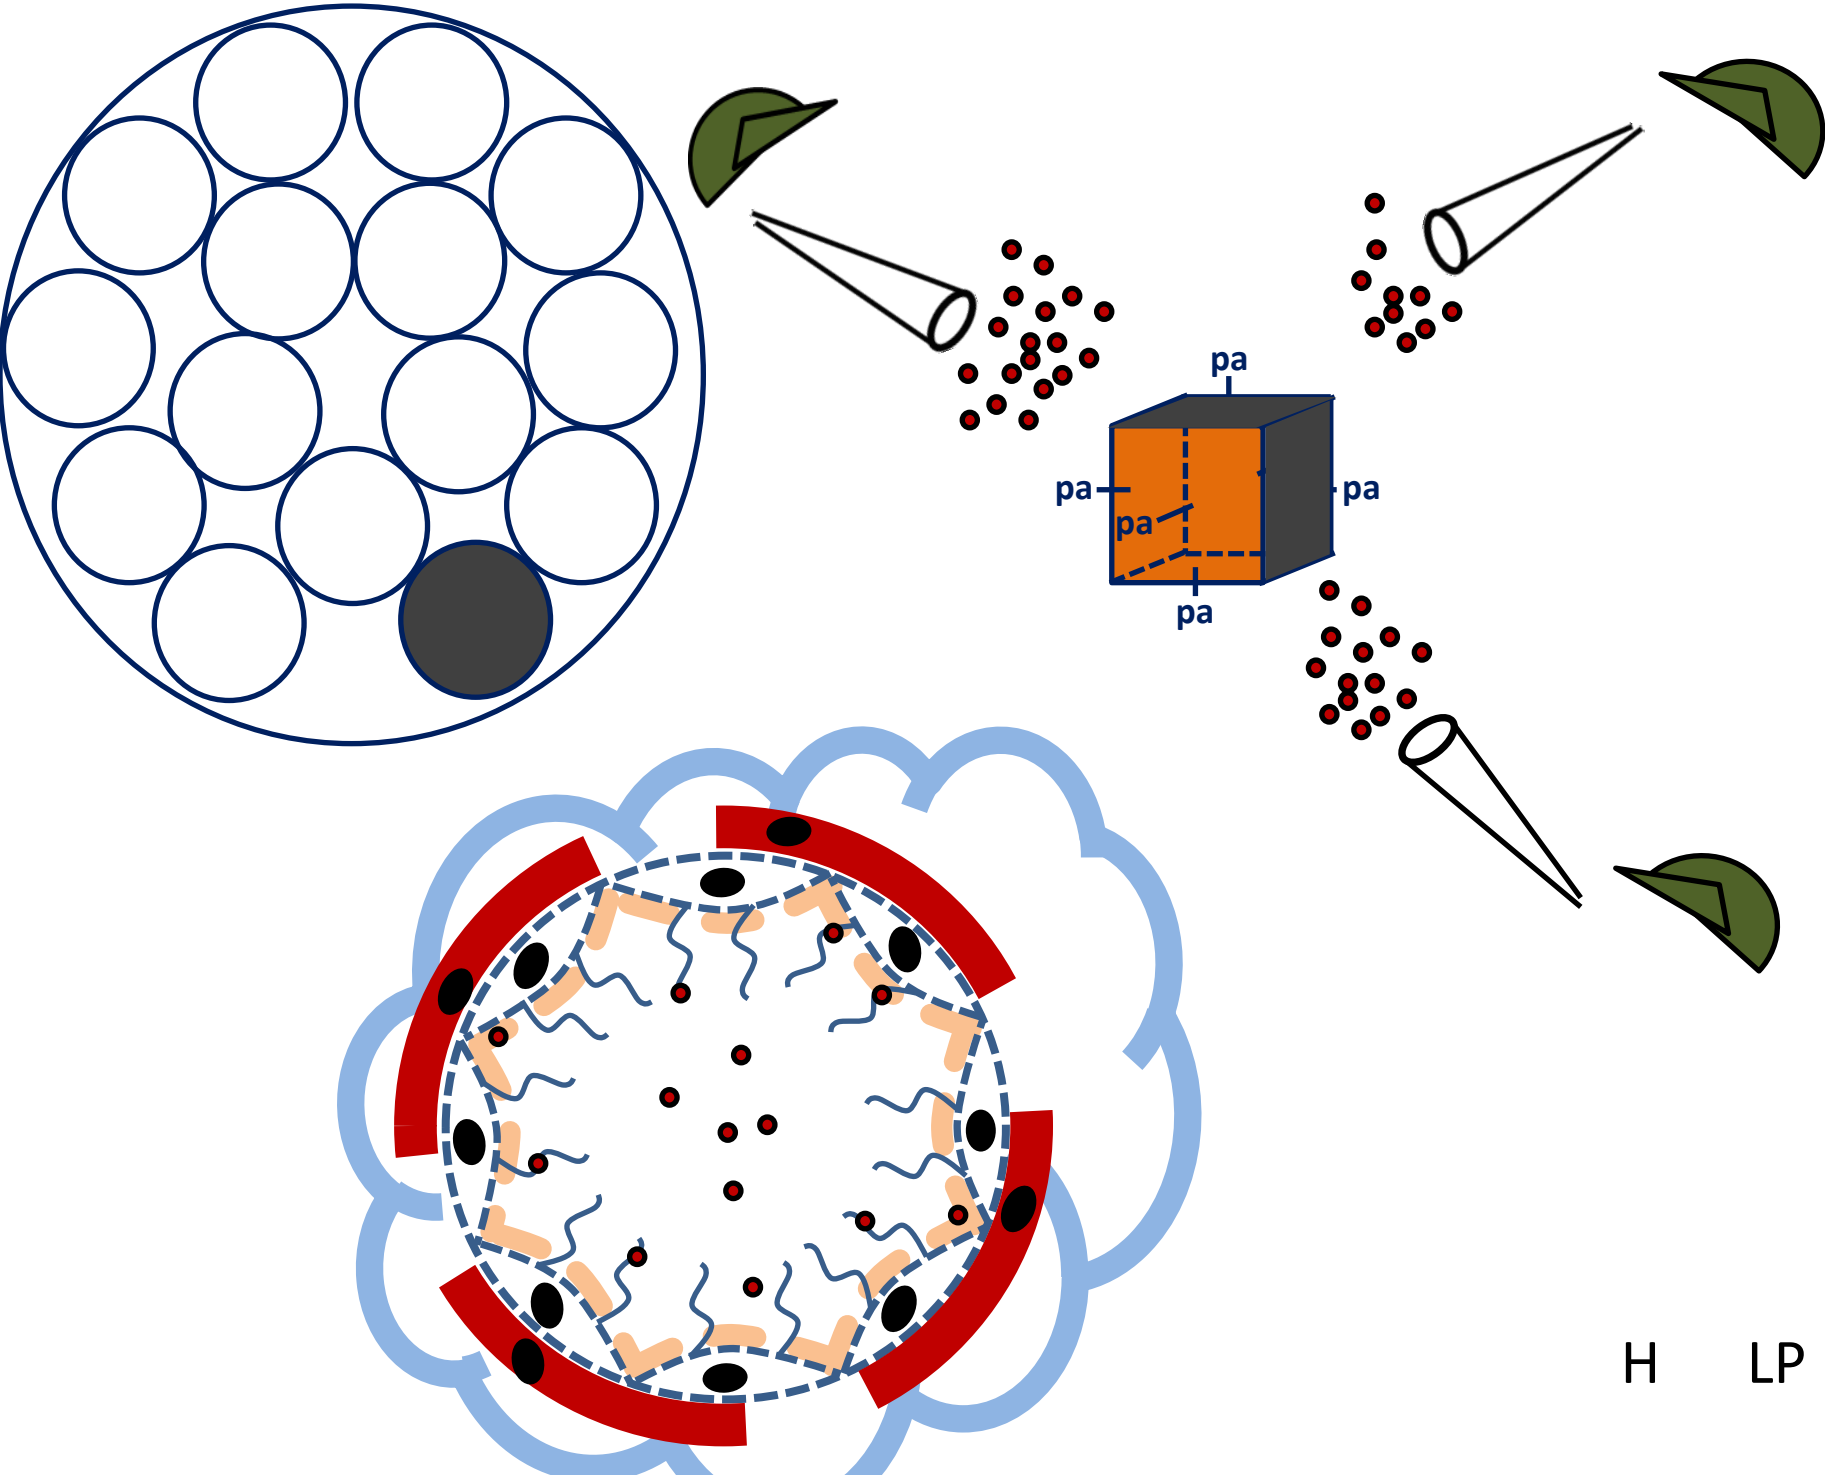

LP
